## ALULA

### USER MANUAL

COPPLIN

"Copplinn focuses on the production of musician and audiophile headphones and adapting these products to technology and keeping the sound quality sound science advances."

We lovely made and handcrafted all products. Sound quality, with the combination of quality equipment; it is a phenomenon that differs from person to person, touching your unreachable feelings. Copplinn, on the other hand, derives from this emotion intensity of sound quality. The emotions created by music come to an end at a mental higher level. The person (the listener), who has reconsidered his personality, is no longer in his previous personality, but in the mental superiority of creating a new value.

Listen, sit back and feel the Copplinn Alula that give us deep emotions and mental superiority. ...to hear everything.
